8. Offsite visits and events
9. Medicines
10. Illnesses and allergies
11. Consent
12. Monitoring and review

Statement of intent

Thurnham Church of England Infant School is committed to providing emergency first aid provision in order to deal with accidents and incidents affecting staff, pupils and visitors. The arrangements within this policy are based on the results of a suitable and sufficient risk assessment carried out by the school in regard to all staff, pupils and visitors.

The school will take every reasonable precaution to ensure the safety and wellbeing of all staff, pupils and visitors.

This policy aims to:

- Ensure that the school has adequate, safe and effective first aid provision for every pupil, member of staff and visitor to be well looked after in the event of any illness, accident or injury, no matter how major or minor.
- Ensure that staff and pupils are aware of the procedures in the event of any illness, accident or injury.
- Ensure that medicines are only administered at the school when express permission has been granted for this.
- Ensure that all medicines are appropriately stored.
- Promote effective infection control.

Nothing in this policy will affect the ability of any person to contact the emergency services in the event of a medical emergency. For the avoidance of doubt, staff should dial 999 in the event of a medical emergency before implementing the terms of this policy and make clear arrangements for liaison with ambulance services on the school site.

1. Legal framework

This policy has due regard to legislation and statutory guidance, including, but not limited to, the following:

- Health and Safety at Work etc. Act 1974
- The Health and Safety (First Aid) Regulations 1981
- The Road Vehicles (Construction and Use) Regulations 1986
- The Management of Health and Safety at Work Regulations 1999
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
- DfE (2026) 'Supporting children and young people with medical conditions and allergy'
- DfE (2017) 'Supporting pupils at school with medical conditions'
- DfE (2022) 'First aid in schools, early years and further education'
- DfE (2023) 'Early years foundation stage (EYFS) statutory framework'
- DfE (2023) 'Automated external defibrillators (AEDs): a guide for maintained schools and academies'

The policy is implemented in conjunction with the following school policies:

- Behaviour Policy
- Child Protection Policy
- Educational Visits Policy
- Health and Safety Policy
- Supporting Pupils with Medical Conditions Policy

2. Roles and responsibilities

The governing board is responsible for:

- The overarching development and implementation of this policy and all corresponding procedures.
- Ensuring that the relevant risk assessments, and assessments of the first aid needs of the school specifically, have been conducted.
- Ensuring that there is a sufficient number of appointed first aiders within the school based upon these assessments.
- Ensuring that there are procedures and arrangements in place for first aid during off-site or out-of-hours activities, e.g. educational visits or parents' evenings.
- Ensuring that insurance arrangements provide full cover for any potential claims arising from actions of staff acting within the scope of their employment.
- Ensuring that appropriate and sufficient first aid training is provided for staff, and ensuring that processes are in place to validate that staff who have undertaken training have sufficient understanding, confidence and expertise in carrying out first aid duties.
- Ensuring that adequate equipment and facilities are provided for the school site.
- Ensuring that first aid provision for staff does not fall below the required standard and that provision for pupils and others complies with the relevant legislation and guidance.
- Ensuring that the school has:
    - A suitably stocked first-aid kit.

- An appointed person to take charge of first-aid arrangements.
- Information for all employees giving details of first-aid arrangements.

The headteacher is responsible for:

- The day-to-day development and implementation of this policy and its related procedures.
- Ensuring that all staff and parents are made aware of the school's policy and arrangements regarding first aid.
- Ensuring that all staff are aware of the locations of first aid equipment and how it can be accessed, particularly in the case of an emergency.
- Ensuring that all pupils and staff are aware of the identities of the school first aiders and how to contact them if necessary.

Staff are responsible for:

- Ensuring that they have sufficient awareness of this policy and the outlined procedures, including making sure that they know who to contact in the event of any illness, accident or injury.
- Securing the welfare of the pupils at school.
- Making pupils aware of the procedures to follow in the event of illness, accident or injury.

First aid staff are responsible for:

- Completing and renewing training as dictated by the governing board.
- Ensuring that they are comfortable and confident in administering first aid.
- Ensuring that they are fully aware of the content of this policy and any procedures for administering first aid, including emergency procedures.
- Keeping up to date with government guidance relating to first aid in schools.

The appointed person is responsible for:

- Overseeing the school's first-aid arrangements.
- Taking charge when someone is injured or becomes ill.
- Looking after the first-aid equipment, e.g. restocking the first aid container.
- Ensuring that an ambulance or other professional medical help is summoned when appropriate.
- Calling the emergency services where necessary.
- Maintaining injury and illness records as required.
- Undertaking an appointed persons course, emergency first aid training, first aid at work, and refresher training where appropriate, to ensure they have knowledge of:
    - What to do in an emergency.
    - How to assess and monitor a casualty.
    - First aid for the unconscious casualty.
    - First aid for someone who is having a seizure.
    - Maintaining injury and illness records as required.
    - Paediatric first aid.

3. First aid provision

The school will routinely re-evaluate its first aid arrangements, at least annually, to ensure that these arrangements continue to be appropriate for hazards and risks on the school premises, the size of the school, the needs of any vulnerable individuals onsite, and the nature and distribution of pupils and staff throughout the school.

The school will make staff aware of the government guidance which stipulates that, in general, the consequences of taking no action are likely to be more serious than those of trying to assist in an emergency.

The school will have suitably stocked first aid boxes in line with the assessment of needs. Where there is no special risk identified in the assessment of needs, the school will maintain the following minimum provision of first aid items:

- A leaflet giving general advice on first aid
- 20 individually wrapped sterile adhesive dressings, of assorted sizes
- 2 sterile eye pads
- 2 individually wrapped triangular bandages, preferably sterile
- 6 safety pins
- 6 medium-sized individually wrapped sterile unmedicated wound dressings
- 2 large-sized individually wrapped sterile unmedicated wound dressings
- 3 pairs of disposable gloves

All first aid containers will be identified by a white cross on a green background.

The appointed person will routinely examine the contents of first aid boxes, including any mobile first aid boxes for offsite use – these will be frequently checked and restocked as soon as possible after use. Items will be safely discarded after the expiry date has passed.

First aid boxes are in the following areas:

- The school office
- In every classroom
- Members of our Play Team also carry waist-belt bags stocked with all the first aid items listed above.

4. First aiders and appointed persons

The main duties of first aiders will be to administer immediate first aid to pupils, staff or visitors, and to ensure that an ambulance or other professional medical help is called when necessary.

The school will ensure that all first aiders hold a valid certificate of competence, issued by an HSE-approved organisation, and that refresher training and retesting of competence is arranged for first aiders within the school before certificates expire.

The school will be mindful that many standard first aid at work training courses do not include resuscitation procedures for children, and will consequently ensure that appropriate training is secured for first-aid personnel where this has not already been obtained.

First aiders will ensure that their first aid certificates are kept up-to-date through liaison with the School Business Manager.

Each classroom's first aiders will be responsible for ensuring all first aid kits are properly stocked and maintained. The appointed person will be responsible for maintaining supplies.

First aid notices will be clearly displayed throughout the school with information on the names and locations of first aiders to ensure that pupils and staff know who they must contact in the event of illness or injury.

The current first aid appointed person(s) are:

Name	First Aid Qualification Valid Until
First Aid at Work	
Miss N Saunders	June 2027
Mrs J Pearce	Jan 2028
Mrs L Ayling	Jan 2028
Paediatric First Aid	
Mrs T Foreman	Oct 2029
Mrs E Pateman	Nov 2026
Mrs E Harris	Sept 2027
Mrs D Butcher	Jan 2028
Mrs S Trott	Oct 2028
Miss H Stephens	Oct 2028
Mrs L Smith	Oct 2028
Mrs W Coltman	Oct 2028
Miss S Chastney	Dec 2028
Mrs H Croom	Dec 2028
Mrs K Fowler	Dec 2028
Mrs C Lee	Jan 2029
Mrs G Solomon	Jan 2029
Mrs Y Powell	Jan 2029
Mrs E Lawrance	Jan 2029
First Aid For Schools	
Mrs M-A Nathan	Oct 2028
Miss R Phillips	Oct 2028

Mrs S O'Brien	Oct 2028
Mr S Fitzgerald	Oct 2028
Mrs C Poulton	Oct 2028
Mrs K Sardar	Oct 2028
Mrs A Salvidge	Oct 2028
Mrs E Lawrance	Oct 2028
Mrs T Johnston	March 2029
Mrs M Pinto	March 2029
Mrs E Harrington	March 2029

The school will ensure that there is always a sufficient number of first-aid personnel available on site at all times to provide adequate cover to all areas of the school.

Early Years

The school will ensure that it meets the paediatric first aid requirements set out in the statutory framework for the early years foundation stage (EYFS), which also includes arrangements for off-site activities.

In doing so, the school will ensure the following:

- At least one person who has a current paediatric first aid (PFA) certificate is always on the premises and available when children are present and accompanies them on any outings - the certificate must be for a full course consistent with the criteria set out in Annex A of the EYFS framework.
- A member of staff is in the room with a valid PFA certificate whilst children are eating.
- PFA training is renewed every three years and is relevant for people caring for young children.
- All staff who have obtained a level 2 and/or level 3 qualification since 30 June 2016 obtain a PFA qualification within three months of starting work in order to be included in the required staff: child ratios at level 2 or level 3.
- It displays, or makes available to parents, staff PFA certificates or a list of staff who have a current PFA certificate.
- Any member of staff who has sole responsibility for looking after a group of children will hold a PFA certificate.
- All newly qualified entrants to the early years workforce who have completed a level 2 or level 3 qualification on or after 30 June 2016, have either a full PFA or an emergency PFA certificate within three months of starting work in order to be included in the

required staff: child ratios. The school will organise PFA training to be renewed every three years. The list of staff who hold PFA certificates can be found in **School Office.**

5. Automated external defibrillators (AEDs)

The school has two automated external defibrillators (AED). These are in the school's main reception and the reception area of the EY Unit, both have infant and child pad cartridges.

All staff members and pupils will be made aware of the AED's location and what to do in an emergency.

No training will be needed to use the AED, as voice and/or visual prompts guide the rescuer through the entire process from when the device is first switched on or opened; however, staff members will be trained in cardiopulmonary resuscitation (CPR), as this is an essential part of first-aid and AED use.

The emergency services will always be called where an AED is used or requires using.

Where possible, AEDs will be used in paediatric mode or with paediatric pads for pupils under the age of eight.

Maintenance checks will be undertaken on AEDs on a weekly basis by the School Business Manager, who will also keep an up-to-date record of all checks and maintenance work.

6. Emergency procedures

If an incident, illness or injury occurs, the member of staff in charge will assess the situation and decide on the appropriate course of action, which may involve calling for an ambulance immediately or calling for a first aider.

If called, a first aider will assess the situation and take charge of first aider administration. If the first aider does not consider that they can adequately deal with the presenting condition by the administration of first aid, then they will arrange for the injured person to access appropriate medical treatment without delay.

Where an initial assessment by the first aider indicates a moderate to serious injury has been sustained, or the individual has become seriously unwell, a responding staff member will call 999 immediately.

Where necessary, a trained staff member will administer emergency help and first aid to all injured persons. The purpose of this is to keep the victim alive and, if possible, comfortable, before professional medical help arrives. In some situations, immediate action can prevent the accident from becoming increasingly serious, or from involving more victims. Where the seriously injured or unwell individual is a pupil, the following process will be followed:

- A responding staff member calls 999 immediately and follows the instructions of the operator – this may include the administering of emergency first aid.

- Where an ambulance is required, a staff member accompanies the pupil in the ambulance and calls the pupil's parent as soon as possible to inform them of the course of action taken. The staff member remains with the pupil at the hospital until a parent arrives.
- Where an ambulance is not required, but medical attention is needed, the pupil is taken to a hospital or doctor in a staff car, accompanied by at least **two** staff members – one to drive the car, and one who is a first aider, to sit with the pupil in the back seat and attend to their medical needs. The pupil's parent is called as soon as possible to inform them that this course of action has been taken, and at least one of the staff members remains with the pupil at the hospital or doctor's office until a parent arrives.
- The school will ensure that no further injury can result from any incidents that occur, either by making the scene of the incident safe, or, if they are fit to be moved, by removing injured persons from the scene.
- Responding staff members will see to any pupils who may have witnessed the incident or its aftermath and who may be worried or traumatised, despite not being directly involved. These pupils will be escorted from the scene of the incident and comforted. Younger or more vulnerable pupils may need parental support to be called immediately.

Once the above action has been taken, details of the incident will be reported promptly to:

- The headteacher.
- The parents of the victim(s).

The school is aware that responding to an incident can be stressful for the first aider, and that following an incident, the first aider may require support. This may take the form of a debrief from any ambulance crew on scene, an appointment with their GP, or mental health support from external helplines and websites located at the bottom of the government page '[Promoting and supporting mental health and wellbeing in schools and colleges]'.

7. Reporting accidents and record keeping

In the event of incident or injury to a pupil, a parent will be informed as soon as practicable. In the event of a serious injury or an incident requiring emergency medical treatment, the School Office will telephone the pupil's parent as soon as possible. Parents will be informed in writing of any injury to the head, whether minor or major, and be given guidance on the action to take if symptoms develop.

A list of emergency contacts will be kept in the **School Office.**

The appointed person will ensure that records are kept of any injuries, accidents or illnesses, as well as any first aid treatment that is given – this will include:

- The date, time and place of the incident.
- The name and class of the injured or ill person.
- Details of the injury or illness and what first aid was given.
- Details of what happened to the person immediately afterwards, e.g. whether they were sent home or went back to class.
- The name and signature of the first aider or person dealing with the incident.

The headteacher will ensure that any injury or accident that must be reported to the HSE or LA under RIDDOR obligations is reported in a timely and detailed manner.

All records will be filed and stored in line with our GDPR Data Protection Policy.

8. Offsite visits and events

Before undertaking any offsite visits or events, the teacher organising the trip or event will assess the level of first aid provision required by undertaking a suitable and sufficient risk assessment of the visit or event and the persons involved.

The school will take a first aid kit on all offsite visits. Additionally, the school will ensure that all large vehicles and minibuses have a first aid box readily available and in good condition.

9. Medicines

Administration

The school will ensure that staff are aware of government guidance which stipulates that the administration of first aid at work **does not** include the giving of tablets and medicines, whether prescribed or not. The only exception is where aspirin may be administered as first aid to a casualty aged 16 or over who is suspected of having a heart attack. Aspirin will never be given to a child under 16 unless it has been prescribed by a doctor.

The provisions and requirements for the administration of medicines will be outlined in the following school policies and documents:

- Allergen and Anaphylaxis Policy
- Supporting Pupils at School with Medical Conditions

In circumstances where pupils may need to have access to life saving prescription drugs in an emergency, the details will be recorded in the pupil's individual healthcare plan and identified staff members will be aware of what to do.

The school is aware that the administration of prescription only medication specified in Schedule 19 of the Human Medicines Regulations 2012 should only be given by those trained to do so. Where a first aid needs assessment identifies that Schedule 19 medication may be required to be administered in an emergency, the school will consider providing first aiders with additional training so that they can be aware of the symptoms and condition and administer lifesaving medication in an emergency situation.

The school will incorporate clear procedures for the storing of medication and for the administration of medication. This will include obtaining parental consent.

Storage

Medicines will be stored securely and appropriately in accordance with individual product instructions, save where individual pupils have been given responsibility for keeping such equipment with them. Medicines will be stored in the original container in which they were

dispensed, together with the prescriber's instructions for administration, and properly labelled, showing the name of the patient, the date of prescription and the date of expiry of the medicine.

Medication will not be kept in a first aid container.

Medicine brought in by pupils will be returned to their parents for safe disposal when they are no longer required or have expired.

An emergency supply of medication will be available for pupils with medical conditions that require regular medication or potentially lifesaving equipment, e.g. an EpiPen.

Parents will advise the school when a child has a chronic medical condition or severe allergy so that an IHP can be implemented and staff can be trained to deal with any emergency in an appropriate way. Examples of this include epilepsy, diabetes and anaphylaxis. A disclaimer will be signed by the parents in this regard.

Pupils will have any medication stored and, where appropriate administered, in accordance with their EHC plans and the school's Administering Medication Policy.

10. Consent

Parents will be asked to complete and sign a medical consent form when their child is admitted to the school, which includes emergency numbers, alongside details of allergies and chronic conditions – these forms will be updated at the start of each school year.

Staff will not act 'in loco parentis' in making medical decisions as this has no basis in law. Staff will always aim to act and respond to accidents and illnesses based on what is reasonable under the circumstances and will always act in good faith while having the best interests of the pupil in mind – guidelines will be issued to staff in this regard.

11. Monitoring and review

This policy will be reviewed **annually** and any changes will be communicated to all members of staff.

Staff will be required to familiarise themselves with this policy as part of their induction programme. Staff will be informed of the arrangements that have been made in connection with the provision of first aid, including the location of equipment, facilities and personnel.

The next scheduled review date for this policy is **November 2027**.
